Since 27 January 2012 different companies of the Petroplus-Group, including Petroplus Holdings AG, are either under suspension of payment or in state of bankruptcy (or similar procedures pursuant to foreign law). At the date of bankruptcy the board constituted of mr. R. Trienen, mr. P. Ruoff and mr. D. Slob. They have withdrawn from their function. PPI was established by official documents on 25 August 1994.
- 1.2 Profit and loss : result after taxes for 2011 -/- USD 89,265,000.-- (based on the preliminary annual accounts for the year 2011). Result after taxes for 2010 -/- USD 32,139,000.-- (based on the annual accounts for the year 2010).
- 1.3 Pending legal actions : PPI has initiated an objection procedure against additional income tax assessments imposed by the Dutch tax authorities.
6 September 2013: The trustee has continued the objection procedure. The Dutch tax authorities have annulled the imposed additional income tax

assessments. The objection procedure has been terminated.

- 1.4 Insurance : n/a
- 1.5 Rent : PPI rented an archive storage with Shurgard Rotterdam Alexander. Shurgard has terminated the lease contract with PPI. The archive previously stored at Shurgard is stored elsewhere.
- 1.6 Cause of the bankruptcy : according to the (former) directors, the cause of bankruptcy of PPI is caused by the bankruptcy of group companies. The former directors reported that the Petroplus-Group got into financial problems in 2011 and that in December 2011 the banks had frozen the credit facility of the Group. As a result, the Petroplus-Group remained in default towards bondholders, who had provided bond loans of USD 1.75 billion. PPI acted as guarantor for these received and on-lent loans, which guarantees have been claimed. The trustee is investigating the cause of bankruptcy.

5 March 2015: The trustee is awaiting the judgement of the Swiss cassation court.

The trustee has, with the consent of the supervisory judge sold the claim on PMAG for EUR 2.1 million to Deutsche Bank Trust Company Americas ('DBTCA'). After the fulfilment of a condition precedent on the part of DBTCA, the assignment of the claim shall be completed. The trustee has informed and requested the creditors of PPI by letters and by the interim report of 15 January 2015, to express their objections, if any, to the assignment of the claim. No objections have been filed. Reference is made to the interim report of 15 January 2015 for additional information regarding the assignment of this claim.

22 September 2015: The claim of PPI on PMAG was transferred to DBTCA.

The purchase price of EUR 2,1 million was received by the estate of PPI.

On 27 March 2015 the Swiss Cassation Court gave a positive decision on the trustee's request for acknowledgement of the Dutch bankruptcy order of PPI in Switzerland.

The Swiss Kantonsgericht Zug ordered the opening of mini-bankruptcy proceedings on 11 June 2015 and the Bankruptcy Authority of the Zug district was appointed the 'Swiss trustee of PPI'. The Swiss trustee is gathering information on the Swiss assets of PPI and also examines if there are preferential creditors that have a claim on PPI. 5 March 2013: PPI has a substantial claim on its English subsidiary Petroplus Refining & Marketing Ltd. ('PRML'). This company is also involved in insolvency proceedings. The liquidators of PRML have taken the position that the claim of PPI on PRML is subordinated to the unsecured creditors, as a result of which PPI will not participate in the dividend to unsecured creditors. This is subject to discussions taking place.

5 September 2014: The trustee has advanced a defence against the position of the liquidators of PRML.

5 September 2014: The largest creditor in the bankruptcy of PPI and in the other Petroplus-bankruptcies proposes that he will have a coordinating role between all bankruptcies to enhance an efficient and less expensive liquidation in order to realise a higher revenue.

23 March 2016: a settlement with the trustees of PRML has not been reached yet. The trustees of PRML stated that they are looking for a solution to the problem of subordination, that will benefit all creditors.

23 September 2016: The trustees of PMAG maintain the view that the claim of PPI against PMAG is subordinated to the non-privileged claims of PRML. The trustee sees insufficient basis to make objections against this point of view.

27 March 2020: The trustees of PRML stated that PPI's subordinated claim will not be paid.

23 March 2016: a settlement with the trustees of PRML has not been reached yet. The trustees of PRML stated that they are looking for a solution to the problem of subordination, that will benefit all creditors.

7. LAWFULNESS

- 7.1 Accounting obligation : under investigation. The books and records of PPI are in the possession of PPI's Swiss subsidiary, PMAG. The books and records of PPI are not available in the Netherlands. Based on Swiss law,

the administrators of PMAG are not willing to hand over the books and records of PPI to the bankrupt estate without a court order. Via a letter of request, as referred to in art. 1 and 3 of the Hague Convention of 18 March 1970 on the taking of Evidence in civil or commercial matters the Obergericht Zug, Switzerland has been asked to make it possible for the trustee of PPI to obtain the entire hard copy and digital books and records of PPI that are stored at PMAG in Switzerland.

6 September 2013: The bankrupt estate has obtained a part of the physical books and records of PPI from PMAG. Furthermore, the trustee has received books and records from the directors. The received books and records have been inventoried and are being investigated by the trustee.

5 March 2014: The received books and records of PPI have been investigated and processed.

22 September 2015: the trustee appointed an external expert to assess the administration and policy of PPI. The expert's report is expected to be finalized coming reporting period and presented for feedback to the former directors of PPI. The fact that a lot of information about PPI can only be found in Switzerland, will not be handed over and that the computer systems of the Petroplus-group, that give access to the administration of PPI, are not accessible is a complicating factor and causes sincere delay.

23 March 2016: the external expert sent his draft report to the former directors for feedback for comment.

23 September 2016: See under 7.5.

- 7.2 Filing of annual accounts : the annual accounts of 2010 are published on 30 September 2011; the annual accounts of 2009 are published on 3 May 2010; the annual accounts of 2008 are published on 26 October 2009.
- 7.3 Auditor's audit certificate : no audit certificate is attached to the annual accounts (exemption on the grounds of art. 2:396 of the Dutch Civil Code).
- 7.4 Share payment obligation : n/a
- 7.5 Improper management : under investigation. Based on his provisional findings the trustee is preliminary of the opinion that the former directors of PPI have manifestly improperly managed PPI. Also to secure the time limit for reporting a claim stated in the Directors' and Officers' Liability Insurance policy the trustee has held the former directors liable for the deficit in the bankruptcy in December 2012. The trustee is investigating this further, has asked the directors to comment and has reserved the right to subsequently amend, supplement and/or withdraw the accusations and claims.

6 September 2013: The directors have disputed their liability. The trustee continues his investigations and involves the statements of the directors and the received books and records in his investigation.

5 March 2014: The trustee has made a factual reconstruction of the rights and obligations of PPI and, as far as possible, of the policy and course of business of PPI. Based on this reconstruction and the comments of the directors, the trustee will form a final opinion about the management of PPI and the important causes of the bankruptcy.

5 September 2014: The meeting with the former directors will take place in the next reporting period. Also further investigations will take place as a result of information received from the directors.

6 March 2015: The meeting with the former directors has taken place.

The trustee carries out further investigations. After completion of his investigations the trustee will send his preliminary findings to the (former) directors for their comment.

22 September 2015: coming reporting period the aforementioned investigations will be finalized and presented for feedback to the former directors of PPI.

23 March 2016: the external expert sent his report to the former directors for comment.

23 September 2016: The former directors have commented the draft report. The external expert will incorporate these comments where relevant.

The external expert will finalize his report in the coming reporting period.

After the report has been finalized, the trustee will form his final opinion about the management of PPI and the important causes of the bankruptcy. This opinion will be submitted to the (former) directors for their comment, after which the trustee will decide if legal actions would be started.

23 March 2017: the external expert has finalized his report. In view of the final report the trustee maintains his claim for liability . The trustee and (the lawyers of) the former directors are investigating whether this matter can be solved through mediation.

25 September 2017: Mediation has started.

27 December 2017: Mediation is ongoing.
